

Level 1 - Prepare

Disease is contained

School Measures:

- School is open for all students
- Contact details are confirmed with whanau.
- Handwashing procedure taught explicitly to students
- Coughing / Sneezing protocols taught explicitly to students
- Social distancing procedures are taught explicitly to students
- Hand sanitizer or soap dispensers are positioned throughout the school

Level 2 - Reduce

Disease is contained, but risks of community transmission growing.

School Measures:

- School is open for all students
- Any staff member or student who presents as being unwell, are to go home immediately.
- Parents/caregivers will be contacted to collect any ill child as soon as possible
- Increased vigilance in use of Tracer App and tracking register
- Social distancing of 1m will be implemented
- Encourage use of water bottles
- Visitors to school must check in with office first
- Assemblies will be cancelled
- Increased classroom hygiene and cleaning protocols

Level 3 - Restrict

Heightened risk that the disease is not contained

School Measures:

- School is open for students in a limited capacity. We would encourage all students to stay home where possible.
- SJHS will provide a variety of online learning options for students
- Staff will move into onsite and online bubbles to reduce the number of contacts
- The school library and pool will close
- Social distancing in classrooms will be implemented.

Level 4 - Eliminate

The disease is not contained

School Measures:

- School is closed for all students
- Full online learning programme implemented
